

### Sports Funding 2015 to 16

St. Margaret's has a great tradition as a sporting school. The PE funding has been welcomed and we have included carefully considered, strategic actions to develop PE in the School Development Plan 2016/17. The school receives £9000 sports funding from the government each year. We have committed to widening the children's range of sports activities.

The children have enjoyed a 'Scooter Day' and a 'Skipping Day'. Each half term we teach different aspects of the sports curriculum. We have introduced karate and this is one of the ways that we have widened opportunity. This has led to the development of a very popular Karate Club with links to the national Ken Yu Kai Squad. Two of our pupils competed in the World Championships in Dublin, one of whom brought home a gold medal.

Sports modules are as follows for this year: gymnastics; team games; dance; karate; outdoor activities and tennis.

From our allocated funds of £9000 we also fund extra coaching after school, for example, football.

We are very aware of our status as a healthy school and promote physical activity as well as healthy eating and personal hygiene.

As always a breakdown of costs is kept by the School Business Manager

Further plans for 2016 to 17. We are developing links with the wider sporting community. For example Ken Yu Kai Karate and Manchester City. We will be working on widening opportunity for our Key Stage 1 pupils with support from Manchester City Coaching Staff. We will provide better training and facilities for our successful 9-a-side football team.

K.A.Perry – Head Teacher.

Brian Ashby-Smith – Deputy Head Teacher and P.E. lead.
